- 30-2000KW
- BEST IN CLASS
- HIGHEST EFFICIENCY
- PREMIUM PARTS & SERVICE

- 30-2000KW
- BEST IN CLASS
- HIGHEST EFFICIENCY
- PREMIUM PARTS & SERVICE

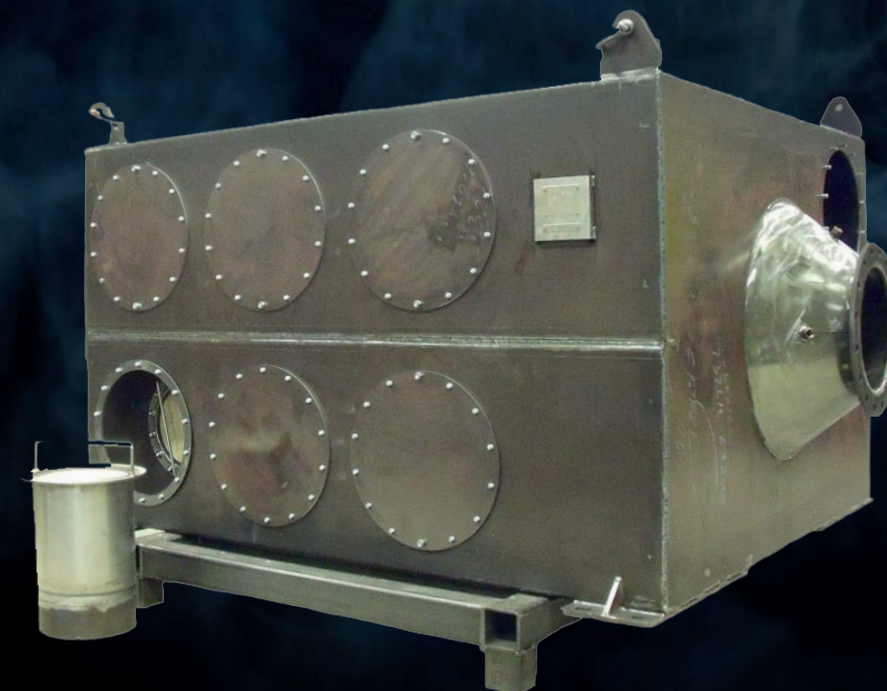

- HIGHEST EFFICIENCY
- 100% RELIABLE
- REMOTE ACCESS

- ULTRA-LOW / ZERO EMISSIONS
- IN HOUSE DEVELOPED SCR
- FOR LARGE INDUSTRIAL GAS ENGINES

- HIGH EFFICIENCY GAS ENGINES
- NEW OR USED GAS ENGINES
- 250KW / 500KW / 1MW / 2MW POWER UNITS

- GLOBAL EXCHANGE NETWORK
- BUY OR SELL YOUR USED ENGINE
- VALUE ADDED UPGRADES
- FULL REMOVAL PROJECT MANAGEMENT

We are specialists in gas engines, gas generator sets and catalytic converter systems for applications in horticulture, utility (CHP), agriculture (biogas), LNG and gasification projects.

Products in a wide capacity range with a high efficiency which meet the strictest environmental requirements. Gas as a basis for the production of electrical power, heat, and cooling. New developments wherein efficiency and emissions are becoming increasingly important and energy can increasingly be put to good use. CO<sub>2</sub> saving is becoming increasingly important.

Engines and generator sets of 30 – 2000kW of a premium brand with the highest efficiency. These engines are suitable both for both high-end and low-end industry, and due to the way these engines have been put together, they can run at full capacity with minimum maintenance costs.

Already more than 50 % are used in energy-neutral projects. We have ample experience in the field of Biogas, (BIO)LPG, Landfill Gas & SYNGAS. We engage in projects in the Netherlands, Belgium, England, Ireland, Germany and Italy.
